

REQUEST FOR INFORMATION (RFI)
31 December 2008

The following Specifications are either zero source or single source QPL documents that NAVAIR is soliciting industry for companies desiring to be qualified.

AS5768 Tool, Stripper, Electrical Insulation, General Specification For dated 2008-08

In accordance with DoD 41 20.24-M, Defense Standardization Program (DSP) Policies and Procedures, March 2000, the Qualifying Activity (QA) is urging manufacturers to submit for qualification those products that can meet the specification requirements. The QA is required to establish a QPL after the issuance of a new specification, or when a revision of the existing specification requires requalification. In an attempt to obtain additional sources the QA is publishing this RFI.

The Qualifying Activity intends to establish, reissue, or expand the number of sources on the list. The Naval Air Systems Command, Department of the Navy, has announced the intention to establish a QPL for AS5768 Tool, Stripper, Electrical Insulation, General Specification For, dated 2008-08.

Companies that have a product meeting the requirements of this specification are urged to contact Rick Clarkson, 812-597-0211, richard.clarkson@navy.mil for an opportunity to test their products for qualification. Future acquisition awards will be made only for such products that have been tested and approved for inclusion in the QPL.

The information collected from this RFI shall be used for planning purposes only. NAVAIR will issue an authorization letter to begin testing to those manufacturers that can meet the QPL requirements. Do not mistake this request as a proposal or as an obligation on the part of the Government. The Government does not intend to award a contract on the basis of the information collected from this RFI or otherwise pay for information solicited. Please identify any proprietary information submitted. All information submitted will be held in a confidential status.
